THE WONDERFUL

PAIN RELIEVER.

BENSON'S CAPSICINE POROUS PLASTER.

HEART-WORKED.

BY NATHAN D. WEBER.

O'Hearts that are worked in mind soon I shall cast away on the sea!

You may mean with tears that emotion, You know not the storm that brewed in me.

With you went a great, heavy, thick, For the heart that fell faintly with you.

But the fellow will still be quickly, And so is the pillow below.

But for me there's no home of pink coral, With the heart and soul of a home.

You laid not the heart's heart in a home, Of alone in the wreck of a home.

By the storm my horizon is bounded, Compass, anchor, and rudder all gone.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

And the heart's heart is a home, And the heart's heart is a home.

INTERESTING ADDRESS ON CHEESE MAKING.

Mr. H. Hubert next took the floor. He

gave very satisfactory and clear statistics of

the industry in England, and in the United States

during the years 1863, 1870, 1876 and

1877, to show that the butter

industry is very prosperous. Our market,

no doubt, for a long time, would be

enriched by the introduction of the

three tons of cheese which would be

sold by the Government. The statistics show

an enormous increase in the quantity of

cheese introduced into England

during the past fifteen years. Mr. Hubert

strongly favored the growth of the

manufacture of best root cheese, pointing

out the great advantages to the

industry which it had given to France,

and the great prosperity which attended

the manufacture of best root cheese there.

Mr. E. M. Barnard, Government

Director of Agriculture, Quebec, was

next introduced, and read a paper

entitled, "Dairy interests of Canada. What

they are and what they should be." After

saying that the last season was most

prosperous to dairymen in Canada, and that

the English market, which usually ex-

hausted our surplus production, was at

present overstocked with inferior grades,

superior qualities command high

prices. Our butter in Canada has been

brought in England on the average 60

shillings sterling, per 100 weight before

shipping. Good butter in Canada is

exceptionally abundant and of the best

quality. Not long ago one of our butter

factories in the West Indies, was at

the time of the late war, but it was found

that the "Blue-nose" would have

nothing to do with the butter of the

West Indies, but it was found that

the butter of the West Indies was

superior to that of the West Indies, and

was annually imported for home consumption

millions of dollars worth of the article, all

of which could be sufficiently raised, and

produced in our own country. Mr. Barnard

concluded his very able address by urging

more attention to home production in the

matter mentioned, and suggesting the

viability of the Government securing

the services of an expert practical butter

cheese-maker to visit the provincial dairies

in the country, and give practical in-

struction to those engaged in the dairy

industry. A short discussion on the above

subject followed, in which Mr. Hubert, Mr.

Ayre, and Prof. Weirall took part.

The convention resumed business at 8

o'clock, the President in the chair.

Prof. Arnold continued his explanations

on the cheese and butter questions

put by members.

The meeting adjourned at 11 o'clock,

until 10 o'clock next morning.

Mr. E. Chadwick, of Ingersoll, read a

paper on "The Cow and the Grass." The

introductory referred to the necessity of

farming, as it was the farmer who furnished

the staple of life for all mankind, and

stated that in the ranks of the agricultural

classes of all ages were to be found some

of the noblest and best of earth's people. He

said that to watch the budding fruit of the

the success of the farmer. Improved ma-

their quality and productivity, and had

BELLEVILLE, THURSDAY, MARCH 6.

The Ontario Election Act.

Mr. Mowat has a Bill before the Legislature, the purpose of which is to amend the law relating to the election of members of that body. It provides that the writ for a general election shall be dated on the same day, to be returnable in forty days from date, except that in the case of Algoma the nomination and election are to be held between the 20th of April and the 10th of November. The duration of the House shall be four years from the return of the Ontario writ, and in the case of Algoma, Muskoka and Parry Sound the elections are to take place upon the same day as the writ of the Province, if practicable. The Government thus admit that their construction of the law with regard to the duration of the Legislature was at least open to doubt, otherwise they would never have sought to fortify it by this Bill. There can be no doubt that the spirit, if not the letter, of the British North America Act, is that a new Legislature should be elected every four years, but the proposed measure this might or might not occur. It would be much better to date the Legislature term from the day set for the return of the writ, otherwise the Province might be four years before the writ of the Province, though whether the writ of the Province is to be dated from the day set for the return of the writ, or whether the writ of the Province is to be dated from the day set for the return of the writ, is open to question.

Villages and towns lying in more than one municipality shall, for electoral purposes, be considered within that Riding which at the last census had the smaller population. Where impossible to determine what the population of a Riding is, the voters therein are to vote in the Riding where they would have voted had the village been incorporated. The village of Blythe is provided shall vote as if a proclamation of the preceding session had been issued. Carrying strong liquor to treat electors or others while canvassing is made a corrupt practice. This is a good provision, as it will put a stop to a great deal of corruption which is carried on in that way. A voter may mark either the right or left of the name of the candidate upon the ballot paper, or apply good provision, which will, as is our opinion, have the intention of the voter can be clearly traced, and he has placed no mark on the ballot paper by which it could be identified, he should not be deprived of his vote owing to lack of care or knowledge. In fact, we think that if a man chooses to mark his ballot so as to render his identification possible, he should not forfeit his right to this suffrage on that account, at least under a semi-secret system, as that which is carried on in Ontario. Any marks upon the ballot paper made or omitted to be made by the returning officer shall not void a ballot. The system of numbering the ballots is still continued, which is very much to be regretted, as the present system, which was consistently tried in an experiment, has not answered its purpose nearly so well as the wholly secret system under which the Dominion elections are conducted. It is much more expensive than open voting, and it is really no more secret. Mr. Mowat had an excellent opportunity to make the desired change, but he has failed to avail himself of it, and consequently his cannot complain, should the measure pass in its present shape, if they are held responsible for failing to satisfy the popular wish in this regard. The system of issuing formal proclamations at various times during the year calling the House together is abolished.

DAIRYMEN'S ASSOCIATION.—A despatch from Ottawa on the 5th says: "The Eastern Dairymen's Association, represented by Mr. K. Graham, Mr. Ira Morgan, and Mr. J. R. Craig, Secretary, had an interview this morning with the Hon. Mr. Wood, Commissioner of Agriculture, and succeeded in inducing the Minister to grant an additional \$500 per annum to both the Eastern and Western Associations."

RURAL DEANS.—The Bishop of the Anglican Diocese of Ontario, having decided to appoint these church officers, the honor has been conferred upon Rev. W. Kirpatrick, M.A., of Kingston, for Frontenac; Rev. J. J. Rogers, of Napawa, for Lennox and Addington; and Rev. E. H. Baker, of Mill Point, for Hastings.

Ontario Legislature.

FOURTH SESSION—THIRD PARLIAMENT.

FRIDAY, March 7.

The House again went into Committee of the Whole on the Bill to make further provision respecting elections of members of the Legislative Assembly.

Mr. MOWAT moved to amend the second clause, as to make the duration of the Assembly date from the date of the election in Algoma, and from the return of the writ for that constituency.

In reply to remarks of Messrs. Dason and Croft, Mr. MOWAT said that the Bill was not intended to alter the Ontario ballot system to conform to that of the Dominion, saying that the system of working the Bill was purely experimental.

He also drew attention to an amendment which he proposed, providing that a candidate should not be disqualified for having paid at a reasonable rate for the actual services of an agent or solicitor, as well as for his expenses.

Mr. LAUDER—Why not do away with canvassing altogether?

Mr. MOWAT—Why give it up as soon as our doors?

Mr. SCOTT—Not members. (Laughter.)

Mr. FLEMING—Opposite position of Mr. CROFT—Friends on the other side. (Heard, hear, and laughter.)

Mr. LAUDER—But see my agent should not be paid a fair remuneration for his services.

Mr. FLEMING—It is the opinion of the Reform Party that elections should be carried on honestly.

Mr. MOWAT proposed to amend the Bill so as to make the duration of the Assembly date from the date of the election in Algoma, and from the return of the writ for that constituency.

In reply to remarks of Messrs. Dason and Croft, Mr. MOWAT said that the Bill was not intended to alter the Ontario ballot system to conform to that of the Dominion, saying that the system of working the Bill was purely experimental.

He also drew attention to an amendment which he proposed, providing that a candidate should not be disqualified for having paid at a reasonable rate for the actual services of an agent or solicitor, as well as for his expenses.

Mr. LAUDER—Why not do away with canvassing altogether?

Mr. MOWAT—Why give it up as soon as our doors?

Mr. SCOTT—Not members. (Laughter.)

Mr. FLEMING—Opposite position of Mr. CROFT—Friends on the other side. (Heard, hear, and laughter.)

Mr. LAUDER—But see my agent should not be paid a fair remuneration for his services.

Mr. FLEMING—It is the opinion of the Reform Party that elections should be carried on honestly.

BELLEVILLE, FRIDAY, MARCH 14.

City and Vicinity.

STATION LABORERS.—Seven trains slept in the cells last night.

NORTH HASTINGS RAILWAY.—A gang of men are engaged in clearing the snow from this road, and Mr. Rickford states that he expects to have it ready for traffic by Monday.

HISTORICAL SOCIETY OF ALBERTA.—College Chapel, Saturday evening, March 14th, at 7 o'clock, entertainment by driver, Mrs. Alpha, John Freeman. Visitors are welcome.

A WARNING NOTE.—With this general thaw and breaking up, too much care cannot be paid to public and private cleanliness in the streets and yards. Sickness can be arrested by precautions taken at this time.

THE TRUST.—The Courier says: "The river has fallen about two feet, so that there is no apprehension of any further damage. On Tuesday the water was running in a swift current over the ice, on the west side, above and below the bridge."

TRENTON HIGH SCHOOL.—From the Courier we learn that J. A. McLean, LL.D., Inspector of High Schools, examined Trenton High School on the 12th. The attendance is over sixty. While present he examined both seniors and juniors in Arithmetic, Algebra, French and English Literature. At the close he complimented the school on the quality of the work done, the manner in which each pupil attended to his own work without looking for help from his neighbor, and their intelligent comprehension of the work before them. He also gave an excellent address on the advantage of patient application in the mastery of any task, enforcing the fact that application snatches the prize from genius.

AMUSEMENTS.—McDonald's "Shaughnessy" Company, with Katie Putnam as the star, are playing "The Old Curiosity Shop," Fanchon the Crystal, and other popular plays of the star, to good business in Ottawa. The Lilliputian Opera Company have re-constructed "Jack the Giant Killer," making it still more attractive, and may pay Belleville a visit on their way east. The English Opera Company are performing thrilling sensation "H. M. S. Pinafore" at the Grand in Toronto. Geo. Fawcett Rowe, the great comedian is to commence a series of performances in Ottawa on Tuesday evening next. He will give a preliminary pay Belleville a visit. The Royal, Toronto, was opened last night by a new company in "Henry V."

SMALL POX IN MANITOBA.—The Medical Review of the 13th inst. says: "The announcement made in our last week's issue of the extension of small pox in the village of Marquette, was, we regret to say, proved too true. Some four or five deaths occurred, we believe, last week, and in consequence of the alarm felt in the community a special meeting of the Council was held to take steps to prevent, if possible, the further spread of the disease. A medical consultation was also called in order to dispel existing doubts as to the nature of the epidemic, by Drs. Deane, of Minto, and Dorland, of Belleville, and very stringent rules were at once drawn up and published. No doubt the reports received during the past few days as to the number of deaths have been greatly exaggerated, but of the existence of this terrible disease there is no doubt, and only the greatest possible care and strict quarantine will prevent its spread."

THE GRAND JUNCTION.—The Campbellford Herald says: "The work of grading on the Grand Junction Railway between Campbellford and Hastings is to be continued at once. It is expected to begin to-day, Thursday. Operations will begin at this end of the line, on the river bank, at the west end of the bridge. The road will then be continued on the surveyed line through Mr. Johnston's lot, facing Queen street, and past the base of the hill just behind the residence of Dr. Ryan. From this point it will pass the hill and pass along about fifty yards west of the residence of Mr. T. McKelvie. Tools necessary for grading purposes are arriving, and the work will first direct their attention to the cutting in the hill and the filling of the little swamp leading from Carleton street. Mr. Dickford's agent called at our office on Tuesday last, and he informs us that he is engaged, for the purchase of the right of way between this village and Hastings."

Police Court.—(Before A. DAWSON, F. M.)

FRIDAY, MARCH 22.

The charge of assault preferred by Ann Kelly against Philip Hutton and Robert Kelly, was, after all the evidence had been taken, dismissed.

Disorderly.—Many say that this disease cannot be cured, but the proprietors of Allen's Lung Balm will satisfy any one who has been cured in very many cases of this terrible disease. They have hundreds of testimonials from satisfied individuals who will willingly admit it has saved their lives.

Interesting Statistics.

A blue book just distributed gives the census of Canada from 1860 to 1878, and contains much interesting information. The contents of this volume consist of the following:—

1. A general statement of the population of Canada, divided into two parts. The first gives the total of the census of 1860, 1871 and 1878, and the second gives the general statement of the movements of population, or vital statistics, from the earliest settlement of the country to the present time.

DORMING PARLIAMENT.—The debate on the budget was resumed yesterday. It opened with an exceedingly able speech by Mr. Tilley.

THE EASTERN PROBLEM.—Owing to the difficulties created by the authorities at Eastern Roumelia, it is feared that the International Commission will not be able to administer the finances of the country in accordance with its programme, as provided for by the Treaty of Berlin.

DISASTERS TO VAN HULST.—The loss of the destroyer Argonaut added to that record of disasters to war ships which the present year opened, with an ominous prominence. The vessel was sunk off the coast of Norway in bitter experience which it had already shared with the English, the German and the American, during the past few years. In 1870 she was captured by the Germans, who gave her master and commander, and all his crew, 11 months of the Magenta and the Vanguard were both lost. In 1876 the French was wrecked off the coast of Norway.

THUNDERER'S BOLD EXPLOIT.—With a loss of life never before or since paralleled on public occasions, occurred the bold exploit of Thunderer's "Kaiserliche Marine." In 1876 the Grosses Kreuzer "Kaiserin Augusta" was sunk in collision and the second by capturing, the loss of life being very great in both cases.

will last several days. The division
will take place on Monday next,

strength on questions of foreign policy.

A Marvellous Transformation

Physicians as a general thing are slow to catch a change in opinion or any thing new. But the people who have they have received and endorsed the Texas CANTON Oil manufactured by the Southern Oil Company, and they are, especially, for children. Some of the most famous physicians known from being the most numerous to most profitable of medicines is the greatest of all the medicines known to the world. Price only 25 cents per bottle.

TERRIBLE SUFFERING.—The distress Nile Valley is appalling. In some villages the people are dying of famine, wild beasts, eating root, and suffering despair. The London Times, while amid the distress of crops as the immediate cause of the distress of the Nile Valley, says: "The ravages from the Follies to meet the ravages of the Khedive the true cause the suffering of the people." A company of capitalists, formed among the people of the Nile Valley, have organized a company, shipping to Orissa, via the Suez, 150 head of prime Texas cattle.

A Marvellous Transformation

Physicians as a general thing are slow to catch a change in opinion or any thing new. But the people who have they have received and endorsed the Texas CANTON Oil manufactured by the Southern Oil Company, and they are, especially, for children. THE LAST HYMN.

The Sabbath day was ending, in a valley by the

river, the benighted thought the people ten-

dered.

As they went to face the sunset in the glowing

light of day.

And a hymn to their dwellings for God's

blessed name was sung.

But they looked down and water, and a stem

a flower, and a leaf, and a seed, and a fruit,

and a hymn to their dwellings for God's

blessed name was sung.

And a hymn to their dwellings for God's
